2147	n/a	<i>The Rainmakers Suite*</i>	Steel Orchestra, Percussion Ensemble; together with a themed carnival Mas' characterisation.	Golden Hands & UWI DCFA Percussion Ensemble; Invited by PASIC to make a <i>Showcase</i> performance for the PASIC 2008 International Convention in Austin, Texas, USA	2007

The Rainmakers was dramatised by playwright Mrs Franka Hills-Headly, with the music composed & arranged by Dr. Jeannine Remy; where the programme narration at various performances was provided by Mr Ancil Valley.

The Rainmakers is a 45-minute themed musical production that combines both a 30-membered steelband with a 20-member percussion ensemble, in various combinations, throughout the performances.

The Rainmakers theme and story is dramatised through a production that incorporates traditional Trinidad and Tobago Mas' folklore (Carnival street characterisations). In that either in stance, or in dance, or in costume presentations that are here choreographed to the music; what is seen, is a close and authentic representation of the formative era of 'TT Carnival style' as applied to the characters dress, and to their postured body movements. So as *The Rainmakers* story unfolds, it is portrayed by stylised, but dynamic, carnival characters.

Program Order; Tune; Performer(s)
